

ROLF employee Dmitry Yadrov obtains 2nd place at the Global Hyundai Technical Olympic Games

This year, Dmitry Yadrov, a technician from ROLF South dealership, won the 1st place at the Hyundai Russian Technical Olympics. As a result, he was sent to participate in the Global Hyundai Olympic Games, which took place in South Korea at the end of October.

The competition was tough as 80 participants from 54 countries were fighting for the rank of The Best Hyundai Technician in the World. The testing procedure included several stages, both theoretical and practical. Dmitry performed the best of his abilities and won the silver medal.

It is the first time a participant from Russia has entered TOP-3 (which has been dominated by the Chinese for a number of years) and this result is really significant for both Hyundai Motor CIS and the whole Russian Hyundai dealership network.

Dmitry has demonstrated the highest level of professionalism, purposefulness and real technical expertise. Let us congratulate him and wish him all the best for the 1st place next year.
